Dear Joshua,

thank you very much for having generously trusted
and okeyed the interview, which is now on press.

As you maybe already know from Luca, my boss was
defeated at the elections for the examining board. Conse-
quently it is almost sure that I shall not obtain the
chair. In this case, I shall be ready for export and in
due time I shall ask you if you know of any job which
suits me.

I am still thinking to the "antibodies" story.

Please send me a reprint of your paper, as soon
as you have it.

Best regards to Ester.

Sincerely yours,

(prof. Ruggero Ceppellini)
